Subject: RE: Anacostia trash data

Hi Trey,

I am so embarrassed. I didn't realize that I never responded to your e-mail. I apologize. We do not have a set data format yet and we're not sure which metrics we will be using. Most of the other volunteer data presented counts and/or weight (in lbs) per clean-up event. Many broke out trash by material groupings (i.e. plastic, paper, etc.), but I found it particularly helpful if it was broken out by bulk vs. non-bulk trash items.

Thank you and sorry for the lack of direction.

Jillian Adair

Can do, but I was wondering more about which metrics you're collecting, how you're breaking out materials (or not), etc.

Ok great. If Excel works for your data, that would be great. Thank you!

Awesome. I will not submit our trash trap data since it's being reported by DOEE who funded it, but I do want to submit our volunteer cleanups data. How do you want the data formatted?

Hello,

Sure, I can still accept data if you'd like to send it over. Thank you!
